Alexandria, VA 22313-1450

Statement of the Substance of the Interview

Dear Mr. To,

This letter is to reply your "Interview Summary" mailed to me on September 7, 2010. As I always insist that I have complied with 37 CFR 1.312 well. I mailed the amended specification with original Claims 1-7 and an electric floppy containing the clean version to you on June 24, 2010 which was filed in your office on June 28, 2010. This is my final amendment of my patent application and is the version I want to be printed. I only made some minor word amendment to the specification for better quality but I did not add any new matter. The amendment makes my statement more precise, clear and specific but not broaden or shrink any element. I believe that the Claims 1-7 structure and dependent relationship is the best way to show the value of this invention. My Claims 1-7 and amended specification should be allowed and printed by your office as soon as possible.

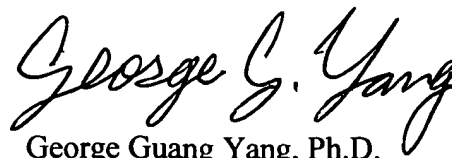

I sent a letter to you on September 1, 2010 with copies of my US passport and the "Certification of Name Change" to reply the "Issue Notification" (Patent No: 7797276, Issue Date: 09/14/2010) mailed to me on August 25, 2010. I am glad that my patent application is finally granted by your office after a decade's examination process. I mailed the amended specification with original Claims 1-7 to you on June 24, 2010,

which was before I mailed the Issue Fee \$755 to the "Mail Stop ISSUE FEE" of your office on July 28, 2010. I have complied with 37 CFR 1.312 well.

I mailed a letter to you on August 6, 2010 to reply to your "Supplemental Notice of Allowability" mailed to me on August 4, 2010. I am glad to learn that "All claims being allowable" as shown on the first sentence of your notice again. I do not agree the "Examiner's Amendment" although it is better than the version mailed to me on May 17, 2010. I sent you a letter on August 2, 2010 to reply to your "Interview Summary" mailed to me on July 30, 2010. I mailed a letter on July 28, 2010 to reply to your "Response to Rule 312 Communication" mailed to me on July 20, 2010. I sent you a letter on June 29, 2010 to reply to your "Response to Rule 312 Communication" mailed to me on June 22, 2010. I sent you a letter on May 21, 2010 to reply your "Notice of Allowability" mailed to me on May 17, 2010 on which you state that "All claims being allowable". I sent the "Statement of the Substance of the Interview" to you on May 17, 2010 to response to your "Interview Summary" mailed to me on May 13, 2010. I sent my "Reply to 'Office Communication' and Request to Allow Claims 1-7" to your office on April 27, 2010 to reply your "Office Communication" mailed to me on April 15, 2010. I mailed the "Request for Reopen Prosecution before Examiner on the Decision of the Board of Patent Appeals and Interferences" under 37 CFR § 41.77(b)(1) to your office on February 7, 2010 and on September 27, 2009, which state enough factual merits and legal bases to oppose the Board's decision to sustain your rejection of Claims 1 & 3.

My patent application is very significant in both technology and economy fields. As the fact shows that delaying my patent approval has also deterred our "Hi-Tech" industry in the past decade. It has consumed ten years of my precious productive life now and ruined my career and my personal life. I require your office to approve and print my amended specification and Claims 1-7 as soon as possible.

Sincerely,

A handwritten signature in black ink that reads "George G. Yang". The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.

George Guang Yang, Ph.D.

Independent Inventor
